

Foremost® Foliage

ALOCASIA Dwarf Amazonica & NEW Bambino™ Series

'Polly' is durable and compact. This plant is ideal for 6" and 8" production. The upper surface of the leaf is dark green, and the midrib is typically a lime-white color. The primary lateral veins are surrounded by white-silver zones. The lower surface is typically matte purple with green-white midrib and major lateral veins.

Dwarf Amazonica 'Polly'

'Bambino™'

'Curly Bambino™'

'Green Bambino™'

'Silver Bambino™'

GROWING TIPS:

LIGHT ▶65% to 75% Shade – high light is good for production but will tolerate low light levels in interior situations.

SOIL ▶Well Drained Soil Mix – with a pH of 5.5 to 6.0 is best. ▶Never allow the plant to become totally dry, but do not overwater.

TEMPERATURE ▶Keep Above 50°F.

FERTILIZER RATIO ▶20-10-20.

ESTIMATED GROW TIME ▶for 6" pot is 14 to 20 weeks (depending on conditions and time of year).
